

# VODIPRIMER

Bituminous solvent-based primer

KG	PACKAGING
5	metal drum
10	metal drum
20	metal drum

## FEATURES

**VODIPRIMER** is a black, highly covering and protective anti-dust undercoat. Its high bitumen content and low viscosity allow easy priming of the surfaces to be treated.

## PRIMARY USES

**VODIPRIMER** is generally used as an anti-dust and adhesion substrate for the installation of our waterproofing systems, prefabricated bituminous membranes and in prefabrication as a protective layer for concrete surfaces. **VODIPRIMER** can also be applied on metal surfaces.

## INSTRUCTIONS FOR USE

**VODIPRIMER** is ready for use. Remove any friable and non-sticking parts from the surfaces to be treated. Shake the product vigorously before use.

**Consumption:** from 0,150 to 0,300 kg/mq

**Application:** roller, brush or airless pump

**Storage:** 12 months in original cans
